EDUCATION

- MSc Molecular Biology
University of Debrecen
2022 - 2024
- MA Project Management
University Ramon Llull - La Salle
Barcelona
2020 - 2021
- BS Biotechnology
Salesian Polytechnic University
2014 - 2019

PROFILE

I am a master's student currently pursuing my studies in Debrecen, Hungary, where I am honing my passion for science. With a strong foundation in laboratory techniques and a deep understanding of project management, I am well-equipped to contribute effectively to scientific endeavors.

My approach to career opportunities is characterized by an open-mindedness and eagerness to explore new avenues. I am excited to embark on new challenges and contribute my skills and knowledge to meaningful projects.

WORK EXPERIENCE

- SCIENCE TEACHER
GOSTUDENT / 2023 - PRESENT
SPAIN - REMOTE

In my role as a science teacher, I conducted online classes covering a range of scientific disciplines, including biology and chemistry. I meticulously organized schedules, tasks, and homework assignments to ensure a structured and effective learning environment for my students.

- LABORATORY ASSISTANT
POLITECHNIC SALESIAN UNIVERSITY / 2019 - 2022
ECUADOR

As a laboratory assistant, I was responsible for the maintenance and upkeep of laboratory equipment. Additionally, I had the opportunity to impart my knowledge by teaching classes on laboratory techniques, with a particular focus on microbiology, molecular biology, and genetics

- RESEARCH ASSISTANT
RESEARCH GROUP ON CURRICULAR POLICIES AND
EDUCATIONAL PRACTICES / 2021 - 2022
ECUADOR

In my capacity as a research assistant, I was actively involved in research endeavors within the fields of education and science education. This experience allowed me to contribute to cutting-edge research initiatives and solidified my commitment to advancing these critical areas of study.
